Aircraft Maintenance Chicago Field Trip Coverage

As per our previous conversations concerning Field Trips into Chicago, it will be our understanding that the visiting mechanics will be "covered" man for man by Chicago mechanics.

1. Man for man coverage will be solicited from the Chicago work force in the work unit affected. (Line/ Avionics / Crew Chiefs/ Tech Crew Chiefs)
2. Field Trip Mechanics into Chicago will not be utilized to cover normal operational shortages i.e.; sick calls, vacation vacancies, crew shortages.
3. Established overtime distribution procedures will apply should the operational needs require additional manpower.

Agreed to:

Russ Newill
Area Director
American Airlines
Aircraft Maintenance

Paul McCormick
President, Local 563
Transport Workers Union

This policy has been reviewed the ATD Vice President and the EPR Directing Manager in accordance with Article 45 of Maintenance and Related Agreement.

Gary Yingst
TWU VP, AA System Coordinator

Jim Weel
Directing Manager,
AA EPR /TWU Principal
